

Weekly Diary

Week - 4 27th February 2026, 7:00 PM

Meeting: 4

Prepared By: Yash Khatri

Member Present: Yash Khatri

During this week, I completed the product page development for Dodo Baby, ensuring proper structure, responsiveness, and functionality as per the approved design. For Happie Planet, I implemented and managed an A/B test for the “Frequently Bought Together” section to analyze user engagement and conversion improvements.

For Rrumi Diamond, I completed the full menu development, integrating structured navigation and improved usability elements. For Neesh Perfume, I finalized the engraving CTA development through the development agent, ensuring smooth functionality and proper integration on the product page.

Additionally, I worked on developing an Automation Report Agent and initiated the setup for technical report automation to streamline monthly reporting processes. I also completed the homepage collection design for Indin Group using the design agent, focusing on layout consistency and conversion-driven structure.

Tasks Decided in Previous Meeting: In the previous meeting, it was decided to continue development for Dodo Baby, implement and monitor A/B testing for Happie Planet, complete the menu development for Rrumi Diamond, finalize the engraving CTA development for Neesh Perfume, work on automation for reporting processes, and complete homepage collection designs for Indin Group.
